

Dear Clients,

I hope you are enjoying the last remaining weeks of summer and had a chance to see the eclipse today.

I have had several questions in regards to how the recession affected the Calgary market. Fortunately, I was watching BNN and they had an excellent video going through all the statistics. They break down how each sector of the market was affected and mention some encouraging news going forward.

I have attached the link: You need to copy/paste into your address bar.

Please do not hesitate to ask me any questions.

Sincerely,
